Miami Beach's tallest penthouse, located at Akoya Condominiums at 6365 Collins Avenue, is about to hit the market asking \$3.325 million.

The three-level Akoya Tower Suite 2 begins on the 46th floor, which offers a master suite and two guest rooms. The next level features the main entrance, kitchen, living space, and a half bathroom, while the 48th floor consists of a private rooftop terrace with a full wet bar and another bathroom. Each level has oversized balconies with direct ocean views.

“There is truly no other property like it,” says [Jeff Miller of Brown Harris Stevens](#). “The tri-story floorplan, the location, the amenities—this residence is one of a kind.”

Akoya amenities include a pool and jacuzzi with an ocean view, tennis courts, racquetball, and a putting green.
